

AW Technologies Press Release / 05.02.2026

# AW Technologies and Grupo Moravi join forces on commercial activities of TrachFlush™ in Mexico

Nørresundby, Denmark / Guadalajara, Mexico – AW Technologies, a company focused on developing and bringing to market disruptive and innovative airway solutions for mechanically ventilated patients, and Grupo Moravi, a Mexican medical device import and distribution company based in Guadalajara, Mexico, announces they have entered into an exclusive distribution agreement for the TrachFlush™ device in Mexico.

Invented by Alberto Zanella, an Italian intensivist, and developed by AW Technologies, TrachFlush™ is a medical device that maintains the tracheal tube cuff's pressure, preventing subglottic secretion microaspiration, and removes the secretion below the cuff and above (subglottic) the cuff non-invasively, lightening the workload for healthcare professionals and reduced patient discomfort.

**The TrachFlush™ Device**

**Illustration of removing secretions with TrachFlush**

When the Flush button is pushed, TrachFlush automatically synchronizes with the ventilator, and deflates the cuff during the inspiratory cycle, utilizing the airflow of pressure from the lungs and the

ventilator to “push” the secretions from above and below the cuff up into the mouth of the patient. TrachFlush re-inflates the cuff again prior to the expiratory cycle, avoiding PEEP loss.

**“I am very excited to be representing TrachFlush in Mexico, adding to our robust product portfolio and complementing our existing product lineup. We are convinced that the technology will greatly benefit Mexican health institutions and patients. Adam and I look forward to a bright partnership ahead!”**

MR. PEDRO MORALES ÁVILA

Commercial Director of Grupo Moravi

**“We are very pleased and excited to announce our partnership with Grupo Moravi. This partnership is very important for AW Technologies, and Grupo Moravi will play an important role in our global expansion of TrachFlush. With the coverage of all states in Mexico; extensive expertise in the respiratory and ICU space; and the synergies with the existing portfolio, Grupo Moravi is the right partner in Mexico for TrachFlush™.**

MR. ADAM HANSEN

Chief Executive Officer of AW Technologies ApS
