

AW Technologies Press Release / 19.02.2026

AW Technologies and Duomed Belgium announce they have entered into an exclusive distribution partnership for TrachFlush™ in Belgium, The Netherlands, and Luxembourg

Nørresundby, Denmark / Aartselaar, Belgium – AW Technologies, a company focused on developing and bringing to market disruptive and innovative airway solutions for mechanically ventilated patients, and Duomed Belgium – a part of the Palex Group, a company focused on bringing high quality products, services & innovations to the healthcare community, announced today that they have entered into an exclusive distribution agreement for the TrachFlush™ device in Belgium, The Netherlands, and Luxembourg.

DUOMED

by Palex

Invented by Alberto Zanella, an Italian intensivist, and developed by AW Technologies, TrachFlush™ is a medical device that maintains the tracheal tube cuff's pressure, preventing subglottic secretion microaspiration, and removes the secretion below the cuff and above (subglottic) the cuff non-invasively, lightening the workload for healthcare professionals and reducing patient discomfort.

The TrachFlush™ Device

Illustration of removing secretions with TrachFlush

When the Flush button is pushed, TrachFlush™ automatically synchronizes with the ventilator, and deflates the cuff during the inspiratory cycle, utilizing the airflow of pressure from the lungs and the ventilator to “push” the secretions from above and below the cuff up into the mouth of the patient. TrachFlush re-inflates the cuff again prior to the expiratory cycle, avoiding PEEP loss.

“We, at Duomed by Palex, are very pleased to be representing TrachFlush™ in the Benelux. TrachFlush is a strong addition to our portfolio of innovative solutions and perfectly complements our existing portfolio in Airway Management. We are convinced that this technology will greatly benefit healthcare professionals and patients in our communities in Belgium, the Netherlands and Luxemburg. It is a pleasure to partner with such an innovative European company as AWT.”

MR. MARC BLEIMAN

Business Unit Manager Pain, Oncology & Anesthesia

“We are excited to announce our partnership with Duomed Belgium, covering Belgium, The Netherlands, and Luxembourg. With deep expertise in respiratory and ICU care and strong portfolio synergies, Duomed is the ideal partner to bring TrachFlush to the Benelux region.”

MR. ADAM HANSEN

Chief Executive Officer of AW Technologies ApS

About Duomed Belgium NV

The Duomed Group is a dynamic organization with a well-established reputation and is active in consultancy, sales, integration, training, and technical support of medical technology and devices for hospitals and medical practices. The group is in full growth and is active in Denmark, Sweden, The Netherlands, Belgium, Luxembourg, France, Switzerland and the United Kingdom. In October 2024, Duomed joined the Palex Group – the largest European platform of value-added solutions and services for healthcare, science, and research.
